

I am Planet Earth

by Jean Marzollo

- The planet Earth describes its location in the solar system, its atmosphere, geographic features, and treatment by the people who live on it.

I am Planet Earth.

I am the third planet
from the sun.
The sun gives me
heat and light.

I have many fine things.
I have cool, wet water.

I have hot, dry sand.

I have leafy trees
and jungles.

I have mountains and valleys.

I have warm, green
rice paddies.

I have cold, white ice.

I have animals.

I have people.

I have towns.

I have cities.

And I have you.
Can you find where you live?

Can you find where you
were born?

Pretend a light
is the sun.
Shine the light
on the globe.

Night and day,
I am your planet,
the only one you have.
Please, take care of me.
